REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. A new railway line from Kunszentmárton to Tiszaug has been completed and it came into use for the railway traffic on 26 January 1952. ¹ The line was joined to the Kunszentmárton - Tiszatenyő (formerly Pusztatenyő) single track railway line at the railway station Kungyalu (formerly Gyalupusztá).
2. A new "Delta" junction line is scheduled between Tiszatenyő (formerly Pusztatenyő) and the Töröksenymén railway station.
3. The bridge across the Körös River, north of Kunszentmárton, was strengthened during 1950. No further work on this bridge is known to have taken place since then.

1. Comment: The mechanized track laying was completed without any delay but the construction of signal boxes etc. was slower than scheduled. It is presumed that lack of materials and skilled workers was the reason for the delay.
